#### RECOMMEND THIS CANNA FOR BEDS

Blooms Early and Late, Scarlet Flowers

THE CONARD & WEST GROVE PENNA.

PROVED THAT IT PAYS TO STOCK UP EARLY WITH C. & J. NOVELTIES EXPERIENCE

They produce more color in greater variety for a longer period over a wider area for the outlay than any other plant. But do not confuse these Cannas with the common kinds—their monkey ancestors—which we consider not worth planting. These rank with orchids in delicacy of coloring and with Mallow Marvels in size. For quality, Conard & Jones' Swastika Cannas are absolutely unsurpassed.

No. 15297 9-18-18
"Just a word. My Cannas are blooming themselves silly, and won't be through until frost nips
them. They are 100 per cent. success and then some. Have never seen so many shoots from any
one bulb since I have been growing flowers. R. E. G., Martinsburg, W. Va. We have carried off first prizes, not only from the international contest held in London before the war, but in every noteworthy exposition in this country-from Chicago, 1893, to the last ones, San Francisco and San Diego,

1915; and now over 20,000 grace the grounds of our National Capital, where they hold aloft the slogan for Swastika Brand Cannas, "Best by Government

#### 5 THE PRESIDENT

Height 4 feet. In color, a rich, glowing scarlet, and the immense, firm, rounded flowers, 7 inches across when open, are produced on strong, erect stalks well above the large, rich green foliage. "The President" is superior to any other red variety in the quantity and also quality of bloom, and the firm flowers resist drought and heat to a remarkable degree. Mr. Wintzer says, "this is one of the most marvelous Cannas ever produced". 75 cts. each.

#### ₩ SNOW QUEEN

Height 4 feet. At last we offer you a vigorous-growing white Canna, large in flower and free in bloom. You cannot obtain it elsewhere or find its equal. The flowers are 6 inches across, with rounded petals  $2\frac{1}{2}$  inches broad, firm texture, and having the faintest dots of flesh-pink on the petals, but the effect is snow-white, They are borne well above the luxuriant green foliage on erect, branching heads in large clusters. \$1.00 each.

#### 5 NOKOMIS

NOTE-We give Indian names to Bronze-leaved Cannas

Height 5 feet. Like "The President", this is a hybrid of the famous Firebird, without any of the bad habits of the parent plant. The foliage is a combination of emerald-green and bronze, beautifully veined, making a lovely setting for the large, vivid crimson flowers. These flowers are most attractive, having a rich silky sheen on the petals and the color is darker than that of any other bronze-foliaged Canna with a bloom near this size. In the field last summer this Canna was conspicuous as a consistent bloomer. Nokomis holds front place in its class and color. 75 cts. each.

AFAYETTE. 4 ft. This Canna was selected to plant in Lafayette Square, directly in front of the White House, for 1916. In some respects it resembles the famous "Meteor." but the flowers are more intense scarlet. The heads of bloom are carried erect above the healthy, green foliage, producing a brilliant effect in mass planting. In the two momentous years that have passed, memories of Lafayette have been viridly before us, and none will forget the simple, stirring words of General Pershing as he placed a wreath on the grave of this hero, "Lafayette, we are here".

rich, soft crimson-pink, par-ticularly clear and pleasing to the eye. Flowers are large treularly clear and pleasing to the eye. Flowers are large with broad, overlapping, rounded petals of great sub-stance and durability. Foliage is light green, prettily veined; the habit is robust but the leaves do not hide the foliage. A most attractive flower and valuable for massing. Price, 25 cts. each; \$20.00 per 100.

5 DRUID HILL. 4 ft. This dark-stemmed, deep red-flowered beauty has most distinct charbeauty has most distinct characteristics. The plant has ebony-red stems and is well furnished with Black-Beauty foliage of more than usual grace. Such a setting makes doubly effective the well-poised heads of rich crimson bloom. Average sized flowers, but a color combination as yet unmatched. Price, 35 cts. each; \$30.00 per 100.

RINCETON. 3 to 4 ft. An intense bright yellow flower with a decided dash of red in the throat, extending well up on the petals and showing on the tonuge also. Its principal value lies in its ability to resist bleaching better than any other yellow Canna. It flowers early. Price, 25 cts. each; \$15,00 per 100. F PRINCETON. each; \$15.00 per 100.

SCITY OF PORTLAND. 3½ ft.
Glowing pink, deeper in color
than its parent, Mrs. Alfred
F. Conard, and the flowers are
produced in greatest profusion. Too much cannot be said
in praise of this lovely variety, as it blooms early and
continuously. The mass of
bloom all summer is simply
marvelous and we strongly
recommend this Canna when a
rich salmon pink color is
wanted. Canna experts pronounce this "the best all-round pink Canna up to date."

AIETY. 5 ft. Color is reddish orange, mottled with carmine and edged with yellow. The tongue is yellow and densely spotted with carmine. When planted in solid beds or rows it produces a dazzling effect. The more you see of this Canna the better you will like it as it certainly is a gay color and most attractive. A "Made in America" SHRUB

See my roots, no starvation here and roots are the vitals of good stock. I'm a strong, sturdy, well built plant, in the sand and potted for one year and then a season in the open ground in famous Chester County soil.
